SKILL / JOB RECOMMENDER APPLICATION

Fast2SMS Integration: (SendGrid Alter)

The screenshot displays the Fast2SMS web application interface. At the top, there's a header with the Fast2SMS logo, account information, and a clock showing 12:26:48 AM. Below the header, a sidebar on the left contains navigation links: Bulk SMS, DLT SMS, Quick SMS, Address Book, Delivery Reports, Transactions, Dev API, Settings, and Help. The main content area is divided into two sections. The left section is a form for creating a promotional SMS, with tabs for 'PROMOTIONAL' and 'SERVICE'. The form includes fields for 'Sender ID' (FastSM), 'Mobile Number' (+91), and 'Message' (Dear user your otp:). There are buttons for 'CONTACT', 'LIST', 'ENGL', and 'ENGLISH'. A 'SEND' button is at the bottom, along with a 'SCHEDULE' button. The right section is titled 'FEATURES' and lists several benefits: 'For Marketing & Promotional SMS', 'No DLT Registration Required', 'Only for Non DND numbers', 'SMS Delivery After Approval', 'Send SMS from 10 AM - 9 PM', and 'Personal SMS not allowed'.
